

Public Notice

DHA Lahore

is a trusted brand name that offers ultimate living experience to its residents. The organization constantly endeavors to provide best standards in community service.

Residents, in the vicinity of National Hospital DHA Lahore had persistently complained about traffic stress in the area and irresponsible parking of vehicles by motorists across gates, blocking entry & exit points. Likewise, the patients approaching hospital have registered complaints about dearth of parking space. Sportsmen visiting DHA H-Block stadium also vented their grievances on absence of parking facility.

In view of the magnitude of the problem the management has decided to establish / construct a parking place / structure and for this purpose proceeded to acquire area / plots across the National Hospital building, as no other plot / area, other than the area identified, is available.

In order to streamline traffic flow and provide adequate parking it is essential to construct building / structure as high as 80-85 feet, which will facilitate parking of almost 500 vehicles and 200 motorcycles. The Management intends to launch this project with private sponsorship.

The Management intends to solicit suggestions / objections from the residents in the vicinity and other interested persons & stakeholders. It is requested that suggestions / objections, if any, may be submitted at the office of DHA Lahore within 14 days of this notice. Public hearing will be arranged accordingly, if necessary.

The project of constructing parking place is purely a “public amenity project” and no commercial activity will be carried out thereat. The support & cooperation of the residents is essential to achieve the objectives.
