## FOODIE EXPERIENCE

### Start of famous eateries in Phase VI & VII

The very first restaurant in the world was opened in Paris in 1765 by a tavern keeper, who started serving sheep's feet simmered in a white sauce as a single dish.

Thailand & France offer the wonders of cuisines. Mexico's cuisine is colourful, fiery and never boring like the country. The travellers are hooked on Spain because Spaniards like to take their time preparing and enjoying their meals. Italy is a paradise for food. Every meal in Italy is made with fresh flavourful ingredients.

Famous for its lavish use of aromatic spices and depth of flavour, Pakistani food is also considered one of the world's greatest cuisines. Tourism and the global sharing of information has encouraged Chinese tourists to return demanding French cheeses and British citizens now expect to find a Thai restaurant, this broadens both culinary and cultural horizons and intercultural tolerance as a result.

DHA Lahore is an ambassador to introduce luxurious life style by providing a trail of facilities in convenient locations. A variety of food restaurants are present in DHA to satisfy the taste goblet of the super tasters. The start of KFC & Hardees at Phase VI and MacDonaldd at Phase VII is the desirous addition.

## THEY GAVE AN EXHIBITION OF THE SWEET SCIENCE THAT TOOK THE BREATH AWAY

DHA Lahore being a high- end living society has special focus to maintain an ambience of healthy living for which a number of activities are being conducted in the community including sports after the relaxation of Covid-19 Pandemic's restrictions.

Viewing live boxing is simply amazing which makes you wanted to box. DHA Lahore has hosted the event of DHA National Boxing Championship 2021 with magnanimity from 1st to 6th December at Captain Fasih Babar Amin Shaheed Sports Complex, Phase-VI, for men and women both.

Female Boxing now looks to the empowerment of women. We salute the female boxers who are breaking down barriers and are seeking equal opportunities to practice the sweet science. It is time for women to be able to participate as amateur and professional boxers on an equal footing.

Boxing involves techniques for both attacking and defending.

There are many interesting terms used in Boxing, let us know about few of these like:

### Cruiserweight

Professional boxing competition is divided into weight divisions in order to provide a more "level playing field." Any boxer weighing 200lbs or less can compete in and

is classified as a cruiserweight.

### Cutting-off-the-Ring

This is a technique that involves limiting an opponent's movement by stepping side to side, not allowing him to move freely around the ring.

DHA relevant team of officers stood successful to surpass the expectations as they prepared the venue of the boxing dramatically appealing for the boxers and audience both. DHA families & the general public entered Captain Fasih Babar Amin Shaheed Sports Complex, Phase-VI to beguile some of the time, but most of them spent long hours as they found none the less an enthralling combination of strong boxing-performances at a spellbinding venue.
